With the phenomenal benefits of PMC’s ATL™ (Advanced Transmission Line) technology, the fact® floor-standing model produces the commanding power and scale that is capable of filling both medium and large rooms with awe-inspiring rich and dynamic sound. With its complement of twin bass drivers and altogether raisonant fact® tweeter, they project an all-encompassing, vivid sonic picture that can be experienced by all.

In short, fact® provides the perfect combination of audio elegance: cutting-edge technology with beautiful handcrafted woodworkmanship.

**Specifications**

**fact®3**
- Frequency response: 38Hz – 20kHz
- Sensitivity: 89 dB 1w 1m
- Effective 0%: 1.1% (4dB	)
- Impedance: 8 Ohms
- Drive Units: 2 x 140mm (5 ½”) precision drivers
  - HF: 1 x compact fact® tweeter, soft dome, ferro-fluid cooled
- Connectors: 2 pairs 4mm PMC Ag terminals
- Dimensions: 300mm (11.8”) + 10mm Grille
- Weight: 9.8kg (21.6 lbs) ea.

**fact®6**
- Frequency response: 38Hz – 20kHz
- Sensitivity: 84 dB 1w 1m
- Effective 0%: 1.1% (4dB	)
- Impedance: 8 Ohms
- Drive Units: 2 x 140mm (5 ½”) precision drivers
  - HF: 1 x compact fact® tweeter, soft dome, ferro-fluid cooled
- Connectors: 2 pairs 4mm PMC Ag terminals
- Dimensions: 491mm (19.3”) + 23mm Grille
- Weight: 19.6kg (43lbs) ea.

**fact®10c**
- Frequency response: 38Hz – 28kHz
- Sensitivity: 89 dB 1w 1m
- Effective 0%: 1.1% (4dB	)
- Impedance: 8 Ohms
- Drive Units: 2 x 140mm (5 ½”) super-long-throw
  - HF: 1 x compact fact® tweeter, soft dome, ferro-fluid cooled
  - LF: 2 x 140mm (5 ½”) precision drivers
- Connectors: 3 pairs 4mm PMC Ag terminals
- Dimensions: 642mm (25.3”) + 23mm Grille
- Weight: 38.3kg (84 lbs) ea.

**fact®12**
- Frequency response: 38Hz – 26kHz
- Sensitivity: 84 dB 1w 1m
- Effective 0%: 1.1% (4dB	)
- Impedance: 8 Ohms
- Drive Units: 2 x 140mm (5 ½”) super-long-throw
  - HF: 1 x compact fact® tweeter, soft dome, ferro-fluid cooled
  - LF: 2 x 140mm (5 ½”) super-long-throw drivers
- Connectors: 3 pairs 4mm PMC Ag terminals
- Dimensions: 1030mm (40.6”) + 25mm spikes
- Weight: 20.0kg (44 lbs) ea.

**Finishes**
- Rich walnut
- Graphite
- Tiger ebony

**ATL™** (Advanced Transmission Line) technology creates the rare effect of speed and weight, making it phenomenally articulate.

The **fact®3** plumbs the depths of any recording in a way that most would consider beyond the abilities of a loudspeaker with such a svvelte and delicate form.

If you are looking for a supremely agile, musical, compact design then look no further than the **fact®3**.
Introducing the **fact** range

The clarity of this range is reflected in their acoustic abilities and their crisp modern lines — design that is influenced by the works of the great architects and designers of the modern age. Common to all these visionaries is a simplicity and honesty in their designs; all that is unnecessary is reduced, leaving only the purest form. Discerning ears and eyes instantly recognise them in the presence of true balance and poise. The sumptuous wood finishes are punctuated with hand polished chrome detailing and subtly textured fabric that projects quality and discernment.

The blend of quality and timeless elegance partners any interior. Fashion come and go, but beautiful proportion will always be in Vogue.

**fact.12**

The **fact.12** is a product of PMC’s passion for distinctive form, performance. It delivers emotion and power while preserving clarity and dynamics at all levels from a small space to performance you can actually feel.

With ATL™ bass loading technology and its audible level controls for precise adjustment of high and low frequencies, **fact.12** guarantees a flawless sound in any listening environment and with a vast range of source equipment.

**Vocals That Truly Sing**

Adding to PMC’s long history of superlative sound, the **fact.12** is a high-fidelity three-way unit that delivers emotion and power while maintaining purity and clarity at all volume levels.

**fact.5c & fact.10c**

For lovers of movies and multi-channel immersive audio, who want to feel truly absorbed and part of a performance, the **fact** centre channel speakers are the perfect choice.

The **fact.5** and **fact.10** centre channel speakers complement the two-way **fact.3** and **fact.8** models and the three-way **fact.12** respectively and retain all the purity and clarity of the celebrated **fact** series.

Voiced identically to PMC’s professional monitor speakers, used by film and music makers worldwide, the **fact** centre channel models enable serious movie and multi-channel enthusiasts to experience their favourite soundtracks exactly as the producer intended.

PMC’s credentials within the film and music production industry are without equal; for over twenty-five years, PMC speakers have been used to compose, mix or master some of the biggest productions including: *Spectre*, *The Dark Knight*, *The Avengers*, *Skyfall*, *Pirates of the Caribbean*, and many more.

**Tuning for Perfect Sound**

The **fact.12** model, in the sound of combining, differing sound signatures, clear and crisp dialogue with well-defined and textured bass is the perfect balance. To further enhance this already excellent sound, **fact.12** includes the all-new AB™ bass level control, which facilitates the integration of the **fact.12** into any environment.

**Specific to the fact.5c & fact.10c**

They are designed to deliver the ultimate in vocal clarity and projection – perfect for the all-important dialogue intelligibility. PMC’s specially designed ATL™ bass loading technology, which provides the following advantages over ported speakers:

- More detailed, more natural
- Full, rich sound of any volume level
- Deeper bass from a smaller cabinet
- Easy to drive with all amplifiers

**Advanced Transmission Line**

All of our loudspeakers offer **ATL™** bass-loading technology, which provides the following advantages over ported speakers:

- More detailed, more natural
- Full, rich sound of any volume level
- Deeper bass from a smaller cabinet
- Easy to drive with all amplifiers
