The definition of **fact** - noun - a thing known to be true with complete certainty

PMC’s vast knowledge of acoustic engineering gained from developing the world’s leading professional loudspeakers has been distilled into the fact® range. Only this level of understanding of the creative process, room acoustics and supreme engineering make fact® possible.

With the phenomenal benefits of PMC’s ATL™ technology the fact®8 floor-standing model produces the commanding power and scale that is capable of filling both medium and larger rooms with awe-inspiring dynamic sound.

With its compliment of twin fact® bass drivers and ultra high resolution fact® tweeter, they project an all encompassing, vivid sonic picture that can be experienced by all. These cutting edge precision drivers are seamlessly integrated with a highly sophisticated 24dB per octave crossover network and, in combination with the ultimately inert ATL™ (Advanced Transmission Line) cabinet, create an entirely natural and refined balance where vocals hang in space and are truly tangible.
Specifications

- **Freq response**: 28Hz – 30kHz
- **Sensitivity**: 89dB 1w 1m
- **Effective Transmission Line**: (Advanced Transmission Line Length) 3m 9.8ft
- **Impedance**: 8 Ohms
- **Recommended amplifier power**: 40 – 300W
- **Drive Units**:
  - LF: 2 x fact® 140mm/5 ½” precision drivers
  - HF: fact® 19mm high res SONOMEX® soft dome handfluid cooled, with 34mm surround and fact® dispersion grille
- **Crossover Freq**: 1.7 kHz
- **Crossover type**: Precision 24dB filters
- **Input connectors**: 2 pairs 4mm PMC Ag terminals
  - (Bi-wire or Bi-amp)
- **Dimensions**: H 1030mm + 25mm spikes
  - W 155mm + 80mm ingot feet
  - D 380mm + 23mm Ag terminal
- **Weight**: 20.0 kg 44lbs
